

Contract Manufacturing RFQ Checklist

Build-to-spec across metal, plastic and thermal — the quote pack.

1. Definition

- Drawing pack / model set
- BOM if an assembly
- Quality documentation requirements (FAI, certs, SPC)

2. Program

- Pilot quantity and annual volume
- Tooling: new, transfer, or existing
- Assembly/test expectations

3. Commercial

- Target dates
- Delivery terms and destination
- What broke with the last supplier, if anything

Send via the quote form, or email support@pa-international.com.au. One dedicated engineer replies with engineering feedback and itemised pricing.
