

Metal Parts RFQ Checklist

One checklist for any metal part — routing happens on our side.

1. Part

- Drawing, model, sample or clear photos
- Material if known
- Critical dimensions and finishes

2. Volumes

- Quantity now, annual, program life

3. Priorities

- What worries you most: tolerance, finish, lead time, price
- Quality documentation needs
- Past supplier problems to avoid

Send via the quote form, or email support@pa-international.com.au. One dedicated engineer replies with engineering feedback and itemised pricing.
